

YES! I WANT TO JOIN AI NOW!

We are excited that you have chosen to make the commitment to join AAI. Membership gives you the opportunity to have a voice in legislative matters, network with a large group of aviation professionals, market your facility or service to a broad industry group, training in a variety of important areas for yourself and those that serve or work with you, State and Federal interaction regarding project funding and compliance issues, and synergies with higher educational institutions. Each of us is not as important as all of us, and with your participation we can help keep Indiana aviation strong.

Please take the time to carefully complete the following information and include your membership dues with this application and send to the Address shown below.
